

JOURNAL OF THE MINERALOGICAL SOCIETY OF JAPAN

(Kobutsugaku Zasshi)

Project collaborators:

Toshiya Abe, Takugo Ishii, Hiroshi Isobe, Naoya Imae, Makio Ohkawa, Hiroki Okudera, Mitsuhiro Ozeko,
Motoharu Kawano, Masanori Kurosawa, Yasuhiro Kosuge, Tsutomu Sato, Keiji Shinoda, Masaya Suzuki,
Norimasa Shimobayashi, Shoichi Toh, Akihiko Nakatsuka, Toshiro Nagase, Chiya Numako, Kenji Hagiya,
Fumihiko Matsuyama, Motoki Minami, Hiroshi Miyajima, Ritsuro Miyawaki, Takashi Yamada, Hirohisa Yamada

Vol. 1, No. 1, September, 1952

Addresses

On the Metamict Phenomena	J. Takubo	1
On the Imperfections of Crystals	Z. Harada	13
The Scope of Clay Mineralogy	T. Sudō	26
<i>Proceedings</i>		35

Vol. 1, No. 2, January, 1953

Original Articles

On the Tetrahedrites from Western Hokkaidō (Studies on the Minor Ore Minerals. Rept. 4)	M. Ishibashi	45
On Tscheffkinite from Shiroishi, Kyoto Prefecture, Japan. (Studies on the Minerals Containing Rare Elements. Part 16)	J. Takubo and S. Nishimura	51
On the Distribution of Radium in Pegmatite Minerals found in Naka-gun District, Kyoto Prefecture, Japan. (Studies on the Minerals Containing Rare Elements. Part 17)	J. Takubo and M. Tachikawa	57

Short Communications

On Fibrous Opal from Ishiyasuba, Suwa-iron-mine, Nagano Prefecture.	H. Minato	67
Chemical Composition of Bismuthinite from the Miyatamata Mine, Akita Prefecture.	H. Ohmachi and S. Matsuda	71
An Apparatus for Optical Measurement of Minerals with a Photomultiplier	N. Katayama and Y. Sato	73
On the So-called "Refractory Clay" and its Clay Mineral from Akabira, Hokkaido	M. Takayasu	78

Reviews

An Apparatus for Differential Thermal Analysis	T. Sudo	84
Synthetic Minerals	H. Inuzuka and T. Imai	90
<i>Proceedings</i>		102

Vol. 1, No. 3, May, 1953

Original Articles

A Study on White Tourmaline from the Kanakura Mine, Nagano Prefecture	H. Takeshi	105
Gahnite from a Pegmatite in Nogisawa Village, Fukushima Prefecture	K. Omori and S. Hasegawa	113
On the Pyromorphite from the Taikyū Mine, Hokkaido	K. Muta and T. Ishimori	117
On Adamite, Cuproadamite and Oivenite from Japan (Studies on the Arsenate Minerals from Japan. Rept. 4)	H. Minato	125

Short Communications

An Additional Crystal Face of the Topaz from Naegi, Gifu Prefecture	J. Kitahara	142
Communications on Minerals of Japan (Part I)	Mumeikai Group	144
1. Diopside from Kanagasaki, Saitama Prefecture	K. Sakurai and T. Ashizawa	
2. Actinolite from Daishoji, Saitama Prefecture	K. Sakurai and T. Ashizawa	
3. Ilmenite from Ishikawa, Fukushima Prefecture	K. Sakurai and T. Ashizawa	

Reviews

Recent Studies on Polymorphism	B. Yoshiki	148
Professor Paul Niggli	T. Ito	161

<i>Proceedings</i>		165
Vol. 1, No. 4, September, 1953		
<i>Addresses</i>		
Unit Cell Constants of Garnet Group	K. Omori	169
Titanium Minerals Viewed from the Standpoint of Mineral Technology	B. Yoshiki	188
Manganese Minerals in Japan	T. Yoshimura	201
<i>Original Articles</i>		
Dielectric Behaviour of Allanite (Studies on the Minerals Containing Rare Elements. Part 18)	J. Takubo and S. Kakitani	214
Beryl from a Pegmatite at Ameda, Omorita Village, Fukushima Prefecture	K. Omori and K. Yokoyama	221
<i>Short Communications</i>		
Localities of Minerals Containing Rare Elements in the Environment of Ishikawa Town, Fukushima Prefecture	K. Omori	226
Communications on Minerals of Japan (Part 2)	Mumeikai Group	231
4. Topaz from Suizawa, Mie Prefecture	K. Sakurai, E. Sorida and S. Matsuyama	
5. Smoky Quartz from Suizawa, Mie Prefecture	K. Sakurai	
Abstracts from Mineralogical Journal Vol. 1, No. 1		242
<i>Proceedings</i>		247
Vol. 1, No. 5, January, 1954		
TAKUBO VOLUME		
Memorial of Jitsutaro Takubo	J. Harada	253
<i>Original Articles</i>		
On the Dielectric Behaviours of Minerals under the Variable Wave Frequencies	J. Takubo and Y. Ukai	258
On the Mineral Belonging to Euxenite-Polycrase Series found in Taira-mura, Toyama Prefecture	J. Takubo, T. Ueda and S. Nishimura	275
On the Minerals Belonging to Columbite-Tantalite Series	J. Takubo, Y. Ukai and M. Korekawa	292
The Distribution of Minor Elements in Pegmatites and Granites from Oku-Tango District, Kyoto Prefecture (Part 1)	J. Takubo and M. Tatekawa	301
Allanite from a Kuchibutoyama Pegmatite in Ôtsunagi Village, Fukushima Prefecture	K. Omori and S. Hasegawa	315
On the Sericite from the Kambe-mine, Nara Prefecture	H. Minato	323
Thermal and X-ray Studies on Stilbite and Heulandite	M. Koizumi and R. Kiriyaama	334
On the Synthesis of Jarosite	M. Goto and Z. Harada	344
<i>Short Communications</i>		
Communications on Minerals of Japan (part 3)	Mumeikai Group	356
6. Autunite from Minamiyamagata, Fukushima Prefecture	K. Sakurai and K. Nagashima	
7. Gadolinite from Takehinata, Yamanashi Prefecture	K. Nagashima and K. Sakurai	
<i>Reviews</i>		
New Localities of the Minerals Containing Rare Elements found recently by Prof. Takubo	Geol. Miner. Inst., Kyoto University	362
<i>Proceedings</i>		370
Vol. 1, No. 6, May, 1954		
<i>Original Articles</i>		
On the Digentite from Ôjamine Mine, Yamagata Prefecture	T. Takeuchi and M. Nambu	373
Chemical Analysis of Calcite Group and the Crystal-chemical Consideration about it	Z. Harada and S. Matsuda	380
Colour of Zincblende from the Hosokura Mine, Miyagi Prefecture	K. Togari	391
Studies on Magnetite from Kayaki-mura, Nishisonogi-gun, Nagasaki Prefecture	G. Shibuya	403
On the Apophyllite from the Shin-yama, Kamaishi Mine	H. Minato, N. Wada and S. Tsurushima	414
Studies on the Chemical Analysis of Several Ores with Regard to their Mineral Composition. (Part 1) General Introduction	T. Imai	422
Studies on the Chemical Analysis of Several Ores with Regard to their Mineral Composition. (Part 2) Mangan Ore	T. Imai and Y. Kaneko	424
<i>Short Communications</i>		
On Twin Crystals of Alabandite from the Inakuraisi Mine, Siribesi Province, Hokkaido	Z. Harada	433
Communications on Minerals of Japan (Part 4)	Mumeikai Group	435
8. Rutile from Kuwanokawa, Kōchi Prefecture	K. Sasakura and K. Sakurai	
9. Fibroferrite from Yamané, Tottori Prefecture	K. Sakurai and T. Ashizawa	

<i>Proceedings</i>		441
<i>Index to Volume 1.</i>		443
Vol. 2, No. 1, September, 1954		
<i>Addresses</i>		
Hokutolites from the Hot Spring Tamagawa	E. Minami	1
<i>Original Articles</i>		
Geiger Counter Measurement of Radiation of Monazite from Ishikawa, Fukushima Prefecture	K. Omori	25
Piedmontite from Tone, Nagasaki Prefecture	F. Hirowatari	33
Pyromorphite from the Nabeto Mine, Ishikawa Prefecture	S. Sugiura	39
<i>Short Communications</i>		
Occurrence of Scarn Minerals at Hashikake-zawa, Sekkai-zawa and Deai in the Chichibu Mine	N. Katayama, Y. Takano, I. Kato, T. Kato and S. Nakagawa	46
Communications on Minerals of Japan (Part 5)	Mumeikai Group	53
10. Fluorite from Igashima Mine, Niigata Prefecture	S. Takasu	
11. Pectolite from Awashima, Niigata Prefecture	K. Sakurai	
12. Cervantite from Tateishi Town, Oita Prefecture	K. Sakurai	
<i>Reviews</i>		
Foundation of Thermodynamics in the Scope of Mineralogy	T. Sudo	61
Abstracts from Mineralogical Journal Vol. 1, No. 2		70
<i>Proceedings</i>		73
Vol. 2, No. 2, January, 1955		
<i>Original Articles</i>		
Some Considerations of Differential Thermal Analysis Curves	K. Nagasawa and Y. Tsuzuki	93
Diagrams for Determining Orientation of Thin Sections of Pyroxene and Amphibole	T. Sueno	104
Ganophyllites from Ananai Mine, Kochi Prefecture and from Ozu Mine, Ehime Prefecture.	T. Yoshimura, H. Shirozu and F. Hirowatari	108
Stilpnomelane from the Skarn of Obira Mine, Oita Prefecture	H. Shirozu	115
On Jarosite and its Occurrence from Tearai Hot Spring, Kirishima Volcano	K. Kinoshita, K. Muta, H. Minato and Y. Takano	121
<i>Short Communications</i>		
Communications on Minerals of Japan (Part 6)	Mumeikai Group	130
13. Euxenite-Polycrase from Ishikawa District, Fukushima Prefecture	K. Sakurai	
14. Euxenite-Polycrase from Nogita, Fukuoka Prefecture	Y. Okamoto and K. Sakurai	
15. Euxenite from Tsukumoushi, Iwate Prefecture	O. Nagashima and K. Sakurai	
16. Dolomite from Igashima Mine, Niigata Prefecture	S. Takasu	
<i>Reviews</i>

Vol. 12, Special Issue, March, 1976***Studies on the Chemical Composition of Minerals by Electron Probe Microanalyser***

Preface		1
Part 1. Fundamental studies		
<i>Preparation of analyzing specimens for electron probe microanalysis</i>		
Preparation of Powder specimens and polished thin section for electron probe microanalysis	F. Hirowatari, Y. Tsuzuki and Y. Yusa	3
Role of evaporated film in electron probe microanalysis	T. Shoji, Y. Fujiki and Y. Shimazaki	8
<i>Some problems in measurements by electron probe microanalysis</i>		
Effect of accelerating voltage on accuracy in electron probe microanalysis	T. Shoji and M. Nedachi	14
Some consideration about background measurement	Y. Yusa	20
Peak-setting of spectrometer of electron probe microanalyser	M. Komatsu	25
- with special reference to computer control of peak-setting		
The focus adjusting and the accuracy of quantitative analysis	K. Tazaki and H. Hirano	31
Detection limit by electron probe microanalysis	S. Yui and Y. Fujiki	35
Quantitative X-ray microanalysis of the unstable samples for electron collision	M. Nedachi, K. Yamaoka and K. Tazaki	42
Duplication of characteristic X-ray spectra in electron probe micro-analysis	Y. Urashima	49
<i>Standard samples for electron probe microanalysis</i>		
Standard samples for electron microanalysis of silicate and oxide minerals	K. Tazaki	54
Standard samples for electron microanalysis of sulfide minerals	A. Sugaki, H. Shima and A. Kitakaze	58
<i>Problems with correction procedures for electron probe microanalysis</i>		
Correction methods; general remarks	S. Yui	66
Computer programs used in the ZAF correction	S. Yui and T. Shoji	70
Quantitative electron microanalysis of element by Bence and Albee method	S. Taguchi and F. Hirowatari	82
Application of Bence and Albee method to analysis of sulfide minerals: Cu-Fe-Pb-Bi-S system	A. Sugaki, H. Shima and A. Kitakaze	85
Mutual transformation among -factors for elements, oxides and some minerals	Y. Yusa and Y. Tsuzuki	93
<i>Technics for elements difficult to be measured by electron probe microanalysis</i>		
Measurement of H ₂ O in hydrous minerals at electron probe microanalysis	Y. Yusa and Y. Tsuzuki	101
Measurement of CO ₂ in carbonate minerals by electron probe microanalyser	S. Mii and A. Minami	107
Measurement technics of ferric and ferrous iron in silicate and oxide minerals	K. Fujino, T. Yamanaka and Y. Takéuchi	111
<i>Automatic operations of electron probe microanalysis</i>		
Quantitative analysis of silicate minerals by automated electron probe microanalyser	K. Okumura and T. Soya	116
Part 2. Mineralogical and geological applications		
<i>Review of application in geological sciences of the electron probe microanalysis</i>		
A review of application in mineralogy of the electron probe microanalysis	Y. Shimazaki	125
A review of application in petrology of the electron probe microanalysis	M. Shimazu	143
A review of application in economic geology of the electron probe microanalysis	A. Sugaki	158
<i>Applications by electron probe microanalysis</i>		
Coexisting jadeite and paragonite in albitite	K. Tazaki and K. Ishi-uchi	184
Chemical composition and d ₁₃₀ -spacing of olivine	I. Shinno and M. Hayashi	194
Study of the chemical composition of enargite and minerals of luzonite-famatinite series from Kasuga and Akeshi mines, Kagoshima Prefecture	A. Sugaki, H. Shima and A. Kitakaze	206
Mineral composition of Kuga iron-meteorite	G. Shibuya	214
Behavior of elements during crystallization of silicate glass	S. Kakitani, M. Saito and M. Inoue	221
Quantitative analysis of elements in aerosol by means of electron probe microanalyser	Y. Ishizaka, Y. Yusa and Y. Tsuzuki	230
Quantitative electron microanalysis of peritic sedimentary rocks	F. Hirowatari, Y. Motomura and H. Matsueda	239
Part 3. Progress and results of studies on the chemical composition of minerals by electron probe microanalysis

Clay Minerals, Their Interstratified Structure and Formational Mechanism		
Preface	M. Sato	1
Modes of occurrence and mineralogy of mica clay minerals in the Hiroshima and the San'in granitic complexes	R. Kitagawa and S. Kakitani	3
An examples on weathering of chlorite and sericite in the Sanbagawa green schist	S. Shimoda	20
A regularly interstratified chlorite/vermiculite associated with chlorite in serpentinite	Y. Nakamura	30
Kaoline-montmorillonite mixed-layer minerals in the weathering zone of acid clay deposits from Itoigawa, central Japan	T. Yoshimura, S. Wakabayashi and J. Akai	42
Hydrothermal syntheses of regularly interstratified minerals	T. Matsuda	58
Notes on the formation and transformation of montmorillonites in Japan	H. Takeshi and Y. Uno	70
Relationship between x-ray basal reflections and interlayer cations of montmorillonite: on the distribution of Ca and Na ions	T. Iwasaki	78
Exchange cations and structural formulae of montmorillonites in the Nakajo acid clay deposit, Niigata Prefecture	Y. Uno and H. Takeshi	90
Synthesis of a regularly interstratified mineral of mica/montmorillonite and its formation mechanism	K. Tomita	104
Factorial analysis on the transformation from dioctahedral mica to mica/smectite interstratified mineral	M. Sato	129
Synthesis of kaolin/montmorillonite mixed layer minerals	K. Urabe, S. Udagawa and T. Hayashi	146
Ion exchange isotherms of zeolites and clays –Their application to the geochemical discussions–	H. Minato, M. Aoki and A. Inoue	162
Hydrothermal treatment of petolite –experimental studies on the genesis of stevensite and "hydrated talc" (3rd Report)–	R. Otsuka, T. Sakamoto, S. Suzuki and S. Shinoda	170
X-ray basal reflection intensities and chemical compositions of dioctahedral mica clay minerals –Triangular diagrams with three components of basal reflection intensities–	K. Oinuma, T. Nishiyama and S. Shimoda	187
minerals, with special reference to characteristic features of ammonium-bearing mica minerals	S. Higashi	197

<i>Mineral and its phase transformation</i>		
Preface	S. Iwai	1
<i>Instrumentation</i>		
X-ray detectors for Synchrotron Radiation	H. Hashizume	3
Thermal decomposition of basic carbonates	M. Kato and N. Mizutani	15
<i>Melt and non-crystalline solid</i>		
Application of ionic-liquid structure theory to geochemistry	K. Furukawa	34
Structure and property of paramagnetic molten system KCl-MnCl ₂	T. Nakamura	51
Structural changes of the compounds in the Na ₂ WO ₄ -WO ₃ system on melting	S. Iwai, J. Oosaka and K. Okada	60
Calorimetric study of non-crystalline solids	H. Suga	71
Synthesis of amorphous material similar to silica glass from water solution	A. Makishima	86
The synthesis of opalin materials	T. Simohira and H. Hirishima	96
The possibility of the presence of alumino silica gel in Mn-nodules	T. Mizota and Y. Fujii	109
Several Minerals formed by submarine volcanism — especially, on the precipitated-minerals collected from yellow-coloured sea water—	J. Oosaka, J. Hirabayashi and K. Okada	118
<i>Syntheses and Growth of crystal</i>		
Environmental condition and crystal growth mechanisms	I. Sunagawa	126
Genetic relation between line defects and inclusions in crystal growth	H. Komatsu	142
Oxide single crystals for electronics grown from melt	T. Kawamura and K. Shiroki	153
Syntheses of Fe(II) bearing oxide crystals under hydrothermal conditions	S. Hirano	161
Influence of silica on the formation of 11 Å tobermorite	K. Nobugai, M. Tokonami, K. Takahashi and T. Mitsuda	172
Serpentine stalactite from Ubé, Yamaguchi Prefecture	G. Shibuya, K. Iishi and K. Yada	181
Thermo-mechanical phenomena of dislocation in MgO	Y. Moriyoshi	189
The resolution of Combined twin of quartz into Brazil twin and Dauphiné twin by S.E.M.	Y. Takano, N. Shiroishi and T. Nishida	205
Biological application of minerals	K. Kato and H. Aoki	210
<i>Crystal structure</i>		
Symmetry of superstructures	R. Sadanaga	215
Crystal chemical image of heat	F. P. Okamura	225
The modulated structure of plagioclase	M. Kitamura and N. Morimoto	231
The 3CaO-Al ₂ O ₃ -Na ₂ O solid solution series : Mechanisms of phase transition and compositional transformations	F. Nishi, Y. Takéuchi and I. Maki	241
Spinelloid: A systematics of spinel-related structures obtained under high-pressure conditions	H. Horiuchi, K. Horioka and N. Morimoto	253
Order-disorder phase transition and fast ionic behaviour in the fluorites	K. Koto	265
<i>Phase transformation</i>		
Phenomenological aspects of the theory of phase transitions in solid	Y. Yamada	275
Phase transition phenomena as studied by calorimetric measurement	H. Suga	284
Ferroelectrics	S. Sawada	297

Ferroelasticity and hypothetical high-pressure phase	A. Sawada	304
Neutron scattering studies of incommensurate ferroelectrics	M. Iizumi	319
Phase transition of $A_2B_2O_7$ compounds in perovskite-type slabs	N. Ishizawa, S. Iwai and F. Marumo	329
Topotactic decomposition of some silicates	S. Sueno, C. T. Prewitt and M. Ohmasa	339
Polymorphism in tridymite	A. Nukui and H. Nakazawa	364
Change of X-ray diffraction pattern of tridymite by heating and cooling	M. Imamura and T. Matsumoto	387
Phase transition of K_2SO_4	S. Iwai, I. Minato and M. Miyake	397
Possible existence of dense phase of cubanite	Y. Miyamoto, T. Ishii, H. Takubo, S. Kume and M. Koizumi	410

Vol.14, Special Issue 3, March 1980

Mineralogy of Manganese Bearing Minerals

Preface	M. Nambu	1
Magnesian braunite from Komata Doi-cho, Ehime Prefecture	H. Momoi and M. Miyahisa	3
Mineralogical properties of Zn and Mg-bearing manganite from Kawara-Sannotake, Fukuoka Prefecture, West Japan	G. Shibuya and F. Hirowatari	12
Chemical composition of rhodochrosite from the Oe and Inakuraishi Mines, Japan	S. Kojima and A. Sugaki	27
Chemical composition of jacobsonite from the bedded manganese ore Deposits	M. Fukuoka and F. Hirowatari	39
On the chemical composition and Mössbauer spectra of manganite phlogopite with reverse pleochroism	K. Ishida and F. Hirowatari	54
Cryptomelane-manjiroite-hollandite series minerals	M. Nambu and K. Tanida	62
Manganese borate minerals from Japan	A. Kato and S. Matsubara	86
Chemical composition of Manganese bearing amphibole in Japan and its classification	M. Nambu, K. Tanida and T. Kitamura	98
Chemical composition of manganese bearing pyroxene from Japan and its classification	M. Nambu, K. Tanida and T. Kitamura	117
Inductively coupled plasma (ICP) emission spectroscopic analysis of manganese minerals	K. Nagashima, E. Koyama and Y. Yamasaki	129
Crystal chemistry of Mn-Mg-Fe olivine solid solution series	K. Fujino	135
Transformation of pyroxenoids	T. Yamanaka	144
Crystal-chemistry of $MnGeO_3$ polymorphs	M. Hirano, M. Tokonami and N. Morimoto	158
Crystal structures and Submicroscopic textures of layered manganese silicates	T. Kato and Y. Takeuchi	165
Notes on hydrothermal syntheses of alleghanyite group	H. Momoi	179
Geochemical study of Komano-yu manganese wad deposit, Hokkaido, Japan	Y. Hariya and M. Tsutsumi	188
Original mineral of bedded manganese ore deposits in Japan	H. Hino and T. Minato	195

Vol.14, No.5, June 1980

Original Articles

<i>Special Issue</i>		
Microorganism Provides New Aspect for Mineralogy	K. Tazaki	45
Morphological Characterization of Jarosite Groups Formed through Mediation of <i>Thiobacillus ferrooxidans</i>	K. Sasaki	47
Accumulation of Gold by Bacteria (Preliminary Report)	H. Honma, M. Nakata and M. Sakinaga	51
The Variation of Chemical State of Iron in the Teeth Formation Process of Chiton	C. Numako	55
Development of the Porous Apatitic Materials	T. Tagai, T. Hoshi and T. Yamada	59
Transformation Processes of Microbial Barite to Sediments in Antarctica	K. Tazaki, J. Webster and W. S. Fyfe	63
Role of Microorganisms in Iron and Manganese Mineral Formation	K. Yoshizu and K. Tazaki	69
Precipitation of Silica to the Filamentous bacteria –Morphology of Stromatolite in Nonphotosynthetic Living Body–	H. Akahane and I. Yasuda	73
Experimental Verification of Bacterial Cause of Upheaval of the Ground	T. Yamanaka, H. Miyasaka, K. Shoji and H. Youta	77
Microorganisms of Hydrothermal Vents at Iheya Ridge	K. Tawara, T. Yamamura, K. Tazaki, H. Chiba and J. Ishibashi	81
Bacterial Biomineralization of Clay Minerals	M. Ueshima and K. Tazaki	87
Biogenic Iron Ore : TEM Observation of Iron Ore Mineral (Goethite) from Gumma Iron Mine	J. Akai, K. Kawamoto and K. Akai	93

Manganese Stromatolitic Structure from Yunokoya Hot Spring	K. Akai and J. Akai	99
Transition Between Periodic Precipitation and Tree-like Crystal Aggregates	A. Toramaru and A. Iochi	103
Microbial Mats Investigated with the Scanning X-ray Analytical Microscope	M. Takano, S. Kawakami, T. Okaniwa, Y. Narazaki and M. Kumazawa	107
Needle-like Minerals at Iheya Ridge	T. Yamamura, K. Tawara, K. Tazaki, H. Chiba and J. Ishibashi	113
Is Mg the Sole Central Metal of Chlorophylls ?	M. Kobayashi, M. Akiyama, H. Kise, S. Takaichi, K. Shimada, S. Itoh, A. Hiraishi, T. Watanabe, N. Wakao	117
<i>Notice Board</i>		121
<i>Proceedings</i>		121
<i>News</i>		123
<i>Book Review</i>		125
Vol. 26, No. 3, August, 1997		
<i>Preface</i>	Xie Xiande	127
<i>Original Articles</i>		
Calcite Formation from Portlandite by Heating in Air –Establishment of global plants for fixation and recovery of carbon dioxide to prevent the greenhouse effect	K. Ikeda., Y. Nakamura and H. Shima	129
<i>Reviews</i>		
Highly Reactive b-Ca ₂ SiO ₄ : Preparation, Hydration and Gels	H. Ishida, K. Sasaki and T. Mitsuda	135
<i>Recent Advances</i>		
Solid-liquid Interfacial Reactions between Clay Minerals and Heavy Metal Ions	A Miyazaki	147
<i>New Instruments and Software</i>		
Powder Diffractometer for Synchrotron Radiation with Multiple –Detector System	H. Toraya	153
<i>Forum</i>		
<i>New Minerals</i>		159
<i>Proceedings</i>		163
<i>News</i>		173
<i>Book Review</i>		174
		176
Vol. 26, No. 4, November, 1997		
<i>Preface</i>	K. Tomita	179
<i>Original Articles</i>		
Segnitite from the Tohgane Mine, Gifu Prefecture, Japan	S. Matsubara and F. Matsuyama	181
<i>Reviews</i>		
Image Analysis of Rock Textures – Present Status and Problems in its Automation –	S. Ikeda, S. Nakashima and A. Tsuchiyama	185
<i>Key Points for Technical Skills in Analyzing Minerals</i>		
Surface Analysis Techniques of Minerals by XPS (ESCA)	T. Hatta	198
Electron Probe Micro-Analysis of Minerals for Light Elements: Carbon and Nitrogen	N. Nishida and M. Kimata	203
Morphological Observation of Hydrous Minerals after the Freeze-drying Preparation for SEM	S. Takizawa	211
Surface Microtopographies of Clay Minerals by Au-Decoration Method and Its Technical Problems	R. Kitagawa	215
A New Imaging Plate System for Transmission Electron Microscopy	S. Uehara	221
<i>Proceedings</i>		230
<i>News</i>		242
<i>Book Review</i>		242
Vol. 27, No. 1, February, 1998		
<i>Preface</i>	S. Akimoto	1
<i>Special Issue</i>		
New Trends in High Pressure Mineral Physics Study	T. Irifune	3
High-Pressure and High-Temperature X-ray Diffraction Experiments at SPring-8 Beamline	K. Funakoshi and W. Utsumi	5
Minerals and Rocks in the Earth's Lower Mantle	N. Funamori	11
<i>In situ</i> X-ray Observation Using Drickamer Type High Pressure Apparatus and Its Application to Geophysics	T. Uchida	19

Spectroscopic Approaches to the Dense Hydrous Silicates and Implications to the Mantle Dynamics	H. Kagi	33
Experimental Approaches to Rheology of the Earth's Mantle	J. Ando	45
The Effect of H ₂ O on the Phase Equilibria and the Physical Properties of the Earth's Mantle Materials	T. Inoue	57
Combined Works of High Pressure and High Temperature Experiments and Analytical Transmission Electron Microscopy on Materials Under Lower Mantle Conditions	N. Miyajima	69
<i>Notice Board</i>		81
<i>Proceedings</i>		85
<i>News</i>		86
<i>Book Review</i>		87
Vol. 27, No. 2, May, 1998		
<i>Preface</i>	S. Ishihara	91
<i>Reviews</i>		
Experimental Geochemical Studies on Oxidation of Pyrite at Ambient Temperatures	K. Sasaki	93
<i>Recent Advances</i>		
Sulfidation Textures of FeNi Alloy in Unequilibrated Chondrites and Its Petrogenesis	N. Imae	105
<i>Key Points for Technical Skills in Analyzing Minerals</i>		
High-Resolution Transmission Electron Microscopy of Clay Minerals: Observation and Sample Preparation	T. Murakami and T. Kogure	113
<i>The Minerals Firstly Found in Japan</i>		119
<i>Notice Board</i>		121
<i>The Museum Programs (on Minerals and Rocks)</i>		122
<i>Proceedings</i>		123
<i>News</i>		124
Vol. 27, No. 3, August, 1998		
<i>Preface</i>	S. J. Kim	125
<i>Symposium</i>		
Introduction	K. Ozawa, N. Shikazono and K. Fujino	127
Appearance and Disappearance of Metastable Phases in Natural Crystallization	M. Kitamura and A. Ozaki	129
Atomistic Discussion of Metastable States from Viewpoints of MD Simulations and Experiments	T. Tsuchiya and T. Yamanaka	137
Evaporation Processes in the Solar Nebula and Chemical and Isotopic Fractionation	H. Nagahara	147
Numerical Simulation of Development of Silica Alteration Zoning in Geothermal System-Preliminary Study Based on Kinetic Reaction-Transport Model	N. Takeno, T. Ishido and J. W. Pritchett	157
Extension of the High Temperature Limit of Cooling Geospeedometry	K. Ozawa	167
Metal-Silicate Equilibrium in the Core Formation of the Earth	E. Ohtani	179
<i>Notice Board</i>		185
<i>Proceedings</i>		185
<i>News</i>		189
Vol. 27, No. 4, November, 1998		
<i>Preface</i>	K. Koto	193
<i>Original Articles</i>		
Zeolites in nephelinite from Hamada, western Japan	S. Matsubara, R. Miyawaki, A. Kato and F. Matsuyama	195
Image analysis of elemental X-ray maps obtained by the Scanning X-ray Analytical Microscope: Transformation from X-ray maps to mineral maps	S. Togami, M. Takano, K. Michibayashi, M. Murakami and M. Kumazawa	203
<i>Reviews</i>		
Parameter Calculations for Thermodynamic Properties of Solid Solution by Britt-Luecke Method	Y. Shibue	213
<i>Key Points for Technical Skills in Analyzing Minerals</i>		
The ALCHEMI Technique and Its Application to Minerals	Y. Tabira	221
<i>Forum</i>		237
<i>New Minerals</i>		243
<i>Notice Board</i>		249

<i>Proceedings</i>		250
<i>News</i>		259
<i>Book Review</i>		259
Vol. 28, No. 1, February, 1999		
<i>Preface</i>	K. Iishi	1
<i>Original Articles</i>		
Dissolution of Andesine into Acidic and Alkaline Aqueous Solutions at 20°C and 150°C—Time Change of Solution Composition and Surface Characteristics—	Y. Kohama, K. Fujimoto, M. Nakata, T. Hatta and H. Honma	3
<i>Reviews</i>		
Introduction to Mineralogy of Soil Environments	H. Kodama	13
<i>Key Points for Technical Skills in Analyzing Minerals</i>		
Specimen Preparation of Rock Forming Minerals by Using Ion Beam for TEM Observation	H. Konishi and J. Akai	23
<i>Forum</i>		31
<i>Notice Board</i>		33
<i>Proceedings</i>		34
<i>News</i>		39
Vol. 28, No. 2, May, 1999		
<i>Reviews</i>		
Calcium Borate Minerals in the CaO-B ₂ O ₃ -H ₂ O System at Fuka, Okayama Prefecture, Japan	I. Kusachi, S. Kobayashi, C. Henmi and Y. Takechi	41
Zeolite-Water Heat Pump, An Innovative Field in Applied Mineralogy	T. Mizota	47
<i>Key Points for Technical Skills in Analyzing Minerals</i>		
Structure Analysis Introducing Partial Profile Relaxation and the Maximum-Entropy Method with Powder Diffraction Data	F. Izumi, T. Ikeda and S. Kumazawa	57
Sample Preparation for Observation with High Resolution Scanning Electron Microscope(HRSEM) by Ion-beam Sputter Coating	S. Takizawa and Y. Ohno	65
Quantitative Electron-Probe Microanalysis of Various Kinds of Rare-Earth Elements in Minerals	N. Nishida, M. Kimata and A. Sugimoto	71
<i>Reviews and Introduction</i>		83
<i>Notice Board</i>		87
<i>News</i>		88
Vol. 28, No. 3, August, 1999		
<i>Preface</i>	F. Scordari	91
<i>Symposium</i>		
Introduction	N. Takaoka, A. Tsuchiyama, R. Kouda and H. Yurimoto	93
Cosmic Dust Recovery from the Space, the Stratosphere, and the South Pole Regions	T. Nakamura, M. E. Zolensky and N. Imae	95
Material Exploration by Remote Sensing from View Points of Resource and Materials	R. Kouda	103
Quantitative Analysis of Rock-Forming Minerals by Visible and Near-Infrared Remote Sensing –Silicate Minerals as Examples—	T. Hiroi	109
Precise Analysis of a Very Small Mineral by an X-Ray Diffraction Method	Y. Nakamuta	117
Synchrotron Radiation Induced X-ray Analyses of Earth and Planetary Materials	I. Nakai	123
How Effectively is Activation Analysis Applied to the Returned Material from Space?	M. Ebihara	131
Handling and Analyses of Trace Amounts of Extraterrestrial Organic Matter	M. Komiya	139
Panel Discussion	A. Tsuchiyama	144
<i>Notice Board</i>		145
<i>Proceedings</i>		146
<i>News</i>		150
Vol. 28, No. 4, November, 1999		
<i>Reviews</i>		
Mineralogy by Means of Molecular Simulations	K. Kawamura	151
<i>Key Points for Technical Skills in Analyzing Minerals</i>		
Estimation of Fe ²⁺ /Fe ³⁺ and Mn ²⁺ /Mn ³⁺ Ratios by Electron Probe Micro Analyzer	Y. Kimura and M. Akasaka	159

Improvement of Signal Processing Procedure of the Analysis of Atomic Force Microscopy (AFM) Data of Mineral Cleavage Planes	T. Okuno and S. Kakitani	167
Observation of Microtopography and Lattice Images on Mineral Surfaces by AFM and Its Problems.	Y. Kuwahara	173
<i>Forum</i>		181
<i>New Minerals</i>		183
<i>Notice Board</i>		185
<i>Proceedings</i>		188
<i>News</i>		198
Vol. 29, No. 1, February, 2000		
<i>Preface</i>	J. Akai	1
<i>Original Articles</i>		
Occurrence and Formation Process of Alunogen and Salt Accumulation on the Surface of Tuff in Yoshimi Hills, Saitama Prefecture, Japan	T. Horiguchi, M. Nakata, N. Shikazono and H. Honma	3
<i>Reviews</i>		
Investigation of Crystal Growth Mechanism for Hydroxyapatite	K. Onuma and A. Ito	17
<i>Symposium</i>		
Development of Inorganic Solid Materials and Mineralogy	A. Yoshiasa, R. Miyawaki, K. Sugiyama and M. Akaogi	31
Searches for New Inorganic Materials by Mineral Scientists	A. Yoshiasa	33
Mechanical Spectroscopy of Inorganic Materials Under Extremely High Temperature Conditions	K. Ota	37
Measurement of Thermal Diffusivities – Melts at High Temperature and Micro Region of Composite –	H. Ohta	43
Modulated Structure Analysis of Composite Crystal by Superspace Group Approach	Y. Gotoh	49
High-Temperature Phase Transition of Cuspidine-Type Rare-Earth Aluminates	H. Yamane and M. Shimada	53
Material Design Using Molecular Simulation	K. Kawamura	59
